

Application scope

- All kinds of fruit trees garden pest control.
- Cotton, rice, wheat, maize and other field crop pest and disease control.
- Greenhouse crop pest control, and the greenhouse canopy temperature of cold weather.
- Plant diseases and insect pests prevention and control of forest trees and gardens.
- disinfection sterilization, breeding places.
- all sorts of places fly, mosquito, antivirus, and so on.

Description of mist sprayer

Product features	This machine is by pulsed jet engines, produce spiral vibrating air at work, will go into the liquid instantaneous break inside the nozzle, spray particle size greater than or equal to 0.5 microns of water mist, and the rapid spread into the air, high penetrability and adhesion, so as to achieve the sterilization insecticidal and the control effect of disinfection.	
Mist sprayer (simple valve, double valve)		

Technical parameters

Name	GWD-100A(SINGLE VALVE)	GWD-100B(DOUBLE VALVE)
N.W.	8.3KG	8.7KG
Overall dimensions	1180X280X310MM	1180X280X310MM
Size of the outer packaging	1360X300X400MM	1360X300X400MM
G.W.	14KG	14.2KG
Cabinet volume	15L	15L
Volume of the tank	2L	2L
Type of complete machine	Portable host shoulder Cabinet assembly with	Portable host shoulder Cabinet assembly with
Mating power unit	Pulse jet engine	Pulse jet engine
Fuel	More than 92 # clean gasoline	More than 92 # clean gasoline
Battery	12V	12V

Description of PVC sprayer hose

Product features	Being made of tough PVC materials and high tensile polyester reinforcement, this hose can work under very high working pressure. It is light, flexible, durable, anti-erosion, and explosion resistant. The hose is widely used in pneumatic tools, pneumatic washing apparatus, compressors, engine components, machine service and civil engineering equipments. Work pressure are 20 bar and 50 bar, can be chosen. working temperature : -10℃-65℃
